		:		(Prior Doc. No. L01-03CIP3)

For: Method of Treating Cognitive Deficits in Learning and Memory

INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicants hereby voluntarily disclose the references listed on the attached Form PTO-1449 to the Commissioner for Patents. This Information Disclosure Statement is being submitted prior to the mailing of a first Office Action on the merits of the application. Accordingly, no fees are due.

Copies of the following references are listed on the attached Form PTO-1449 and are enclosed: D3-D4; D7-D10; D12-D14; D17-D20; D26-D28; D33 and D36. References P1 through P11 and References D1-D2; D5-D6; D11; D15-D16; D21-D25; D29-D32; D34-D35 and D37-D43 are listed on the attached Form PTO-1449 and should be available in corresponding Application Nos. 09/198,882 or 08/935,364 as all references were either previously provided by Applicants or were cited by the Examiner. However, Applicants will provide any necessary copies upon request.

Document D7 is a German language document published with an English language abstract. The abstract appears to suggest that the document comprises a discussion of effects of nicotine in the central nervous system, especially in the dopaminergic and cholinergic systems.

This statement should not be construed as the representation that any search has been made, or that the information cited herewith is material, or that there does not exist information more material to the examination of the present Application. The Examiner is specifically requested not to rely solely on the information submitted herein. On the contrary, the Examiner is requested to conduct an independent and thorough review of all available information, and to form independent opinions as to its significance.

Applicants further reserve the right to establish the patentability of the claimed invention over any of the listed information should they be applied as references, and/or to prove that the cited information may not be prior art, and/or to prove that the cited information may not be enabling for the teachings they purport to offer.

The Examiner is respectfully requested to initial and return copies of the enclosed Form PTO-1449 and to indicate in the official file wrapper of the above-identified patent application that each item of the cited information has been considered.

Respectfully submitted,

Date:

Dec 5, 2003
